## Step 3: Start recording your observations

Once you log in to the eBird app you should see a screen like the one below.

The <b>Co</b>	rnellLab
	DATE
11 Au	ıg 2020
STA	ART TIME
10	):53
$\overline{}$	
RECORD	TRACK
Start	checklist
Chacklists	

Click "Start Checklist" to start recording observations in real time. You can adjust the date and time to add observations from a previous birding trip. "Start checklist" will pull up a list of birds that are common for your area. You can go down the checklist and mark what you see.

←	11 Aug 10:25AM • Auto selected 40.167,-75.188 Hide
	Likely species based on 1510 checklists in 20x20km area
Q	# species name/code
+	Green Heron
÷	Turkey Vulture
+	Cooper's Hawk
1	Red-tailed Hawk
÷	Belted Kingfisher
+	Red-bellied Woodpecker
+	Downy Woodpecker
+	Hairy Woodpecker
÷	Northern Flicker
±	F 🔎 Review

Once you see a bird and click it on your active checklist, it will pull up a box where you can give more details such as the number of birds seen or how you observed it.

Lastly, make sure you submit your completed checklist to the eBird server. At the bottom of your main app screen there will be a "checklist" tab. Click that tab to see if you have any unsubmitted checklists. Then you can click on the checklist and hit "submit" to finalize your observations!

Thank you for birding with us and for contributing to our bird diversity monitoring program! We love having you as an Owlet!
